Except for emergency services and urgently needed services when the participant is outside the Kinship PACE service area, participants must receive all covered healthcare services through Kinship PACE or through providers authorized by Kinship PACE. Kinship PACE is responsible for arranging and authorizing all medically necessary services identified by the Interdisciplinary Team (IDT) and included in the participant's plan of care. Participants may be financially responsible for services obtained without Kinship PACE authorization or outside of the PACE program agreement, unless such services are emergency or urgently needed services covered under PACE requirement.
